glen.bigney@efiglobal.com

Professional Summary:

Mr. Glen Bigney is a Professional Engineer with EFI Global in Canada. He has been employed for EFI Global for fourteen years with project management experience.

Mr. Bigney's experience entails work in both the transportation and environmental industries as well as both the public and private sectors.

Licenses and Certifications:

Registered Professional Engineer in New Brunswick, Nova Scotia, Newfoundland, and Alberta

Project Experience:

- **Environmental Solutions Remediation Services, Senior Project Manager** – Managing environmental remediation projects on behalf of multiple insurance industry and transportation industry clients. Primary duties include completing site assessments; hiring various subcontractors to complete excavation, transport, traffic control, restoration, waste management, and laboratory analysis tasks; managing project costs; collection of soil and water samples; completion of interim reporting to the client and regulatory closure reporting to multiple Provincial and State Governments.
- **NCDOT Location & Surveys Unit, Assistant Group Leader** – Operated out of the Williamston Field Office, which was responsible for the pre-construction design surveys for 14 counties in Northeastern North Carolina. Typical projects involved bridge replacement surveys, highway upgrade surveys, new transportation facility surveys, wetland mitigation surveys, and litigation surveys. Approximately 60% of projects were handled in-house and 40% were contracted to private engineering firms. Primary duties included coordinating, estimating, and negotiating contract work, project management, assisting to manage the office, personnel management, checking data, conducting safety audits, contacting land owners impacted by our work, assisting with field work, and conducting records research.

- **Spill Response**
- **Environmental Site Assessments and Audits.**
- **Environmental Sampling and Analysis**
